PROBABLE CAUSE

The defendant (D-1) was traveling south on Overland Road north of Beggs Road in a left curve in the roadway. D-1 indicated that she attempted to pass a passenger van in front of V-1 that began to slow down. D-1 drove across the double yellow lines then lost control as it reentered the northbound lane. V-1 rotated counterclockwise as it traveled in a southeasterly direction across the roadway and onto the east shoulder colliding with a mailbox. V-1 continued out of control traveling in a southeasterly direction into a secondary collision striking a concrete culvert. At secondary collision with the culvert, V-1 rotated counterclockwise into a third collision with its right rear passenger door striking a tree. At impact with the tree, V-1 overturned onto its roof and came to final rest just south of the tree facing northbound. While on the scene, the Florida Highway Dispatch called us to report to Florida Hospital South (Orlando), regarding an occupant of the vehicle involved in the crash. Dispatch advised the occupant was being "very hostile and belligerent". The information was provided to dispatch by employees at the hospital. Trooper Daniel Mintz responded to the hospital to handle the situation. (See attached FHP Offense Report # FHPD11OFF033564).

After completing the measurements and evidence recording at the scene, Sergeant Raymond C. Koenig and I went to the hospital to interview the defendant. The defendant was located on room #12 at the Florida Hospital Emergency Room. On my arrival I observed a young black female on the bed with several injuries on her face and body. I identified myself and told her that I was the Traffic Homicide Investigator in charge of the fatality investigation. At that time she spontaneously told me I can take her to jail because she killed her daughter and that she had been drinking. I explained the defendant that I needed to do a sworn interview with her, which she agreed. While I was in the room, I observed that she had blood shoot and glassy eyes. Also I can smell a strong odor of alcoholic beverage coming from her mouth.

I proceeded with the sworn interview and read Miranda Warning to the defendant and she agreed to answer my questions without an attorney. She stated that she was traveling southbound on Overland Road and she attempted to pass another vehicle on a curve (no passing zone). She stated that she lost control of the vehicle and struck a tree. She also stated that she did not remember her speed, but the vehicle in front of her was traveling slow. I asked her there was other traffic involved on the crash and she replied that there was no other vehicle involved.

I asked her if she had anything to drink or eat. Her reply was I had a cup and a half of "Crown Royal" and Coke. I asked if "Crown and Coca Cola" and she replied, "NO, I did Crown Royal and Cocaine". She also stated that she hadn't had anything to eat in 3 days. During the interview the defendant was belligerent and requested that I should take her to jail. At that time, I proceeded to conclude the interview and allow the nurses to take care of the defendant.

A blood sample from the defendant was sent to FDLE Crime Laboratory for testing. The blood test on D-1 indicated D-1 had a blood alcohol level of 0.244 grams of alcohol per 100 milliliters of blood. The BAC level of 0.244 is above the legal limit of 0.08, which Florida Statute states is prima facie evidence of alcoholic impairment for vehicle operators. D-1's ability to perceive and react to events occurring around him was diminished by her consumption of alcohol.

Report Date / Time 04/29/2011 07:35 AM	Agency Case/Offense Number FHPD11OFF033564	OCA Number	Originating Agency Case Number	OBTS Number	Offender Based Transaction System	Jail Booking Number	Other Number FHP 711-07-017
---	---	------------	--------------------------------	-------------	-----------------------------------	---------------------	--------------------------------

At the time of the crash, the defendant never had a drivers license issued to her.

I was called by dispatch to report to Florida Hospital South, regarding an occupant of the vehicle involved in the crash. Dispatch advised me the occupant was being "very hostile and belligerent". The information provide to dispatch was from the workers at the hospital. Dispatched advised me that she was claiming to be driving the vehicle and had drank alcohol during the day. I arrived at Florida Hospital South and was lead by a nurse to the area in which the subject was being treated. I spoke on the telephone with a charge nurse by the name of Kenny Rodriguez. He explained to me that the subject had told him and other nurses that she was drinking and had used cocaine during the day prior to the crash. Mr. Rodriguez informed me that the nurses where instructed by him to cooperate with the Florida Highway Patrol regarding a blood draw. Mr. Rodriguez indicated he instructed his nurses to help in any way that was needed, considering the severity and circumstance related to the crash. After speaking with Mr. Rodriguez I spoke with two other nurses that were involved in the treatment of the subject. A nurse by the name of Carly indicated to me that after Dr. William Randall Poole advised the subject of the fatality, the subject became very aggressive almost striking Carly. The subject then began to claim to Carly that she was driving and she had been drinking. Carly then advised me that she had calmed down, since then. I was able to speak with the subject after she had some time with the Hospital Chaplain. I entered the room in which she was being treated with Carly. The Chaplain was still in the room. I introduced myself. The subject then stated to me "I killed my baby" "I killed my baby", "I was drinking and I killed my baby." It was spontaneous utterance. She also stated "You can lock me up I don't care, I was drinking." The subject began to talk about her daughter singing at Sea World. I was able to observe the subject had glassy blood shot eyes. The subject was not able to sit still on the bed that she was sitting on. She was moving her position every few minutes. In whatever position the subject found herself in she would sway slightly. She was unable to stay focused on one thing. Her attention would be on me telling me small incidents regarding the crash and then her attention would go back to the nurse asking what she was doing. He mood would change slightly in conjunction with her focus. She would give polite attention to me then when the subject's focus went to the nurse the mood would be a little edgy. At that point I handed the blood kit to Carly. Carly explained to the subject that she is going to draw blood. The subject stated "Didn't you draw enough blood already." Carly indicated it was for the police. As Carly prepared the subject for the blood draw, I explained that the blood draw being done now is for police investigation, it is separate from the hospital blood. Carly indicate that the needle may hurt, the subject then state "I just killed my baby, I don't care about a needle." At which point the Chaplain continued to talk to the subject to keep her attention off the pain. After Carly drew 2 tubes of blood she handed them to me at which point I followed proper care procedure regarding the blood. The blood was then turned over to the investigating Trooper.
