**VIOLATION:** If you believe any irregularities or fraud involving voter registration or voting, or candidate or issue petition activities have been committed, please state the specific acts committed by the person or entity named in this complaint:

~~Votes were manipulated electronically by the Supervisor or with his knowledge, additionally a large "dump" of votes came in from Orange County at end of FL11 race (after noticeable delay) that changed the race by 7 pts in favor of establishment candidate who did not campaign and had no support among the people. The dump was clearly orchestrated after officials determined how many votes were needed to change the race.~~

### STATEMENT OF FACTS

State in your own words exactly what happened. Please include details such as what happened, where the events or acts happened, when they happened (including dates and times), what you were told, who spoke to you and to whom you spoke, what you agreed or did not agree to, and who else saw or knows about what happened. Include the names, addresses and phone numbers of relevant persons. Also, give any reasons why you feel that the person or entity against whom you have brought this complaint knew that his or her actions were wrongful. The more specific information that you provide to us, the better we will be able to assist you.

~~I wish to file a formal complaint regarding the FL11 primary between Loomer and Webster. As the "results" rolled in it appeared to be a classic 2020 example of one candidate who makes no appearances, hides in their basement, has zero quantifiable popular support and is outtraced by the other candidate, then, inexplicably, "wins" the race. This is the case here. Thus far, my evidence is circumstantial. The time history graph on election night shows the actual fraud.~~

~~I am a Ph.D. and Professional Engineer, I don't claim to be the smartest guy in the room but I have worked many years in data analysis and observed natural data and distributions and time histories. A "normal" election will have the most variability at the beginning of the time history and it will begin to damp out (narrow) as more data (ballots) come into the system. We are seeing (Colorado for example, and others) a very odd trend where the traces for both candidates essentially track each other from the very first precinct, and retain essentially the same delta or at least very close. This is not normal, this is not organic, this is evidence of manipulation.~~

~~The data from Aug. 23rd (which I am supplying as attachment) shows clear manipulation and fraud. As a Floridian and a citizen who supported the defrauded candidate I DEMAND that an investigation take place into this race which includes inspection and audit of the paper ballots, by hand and eye. Not simply running fake ballots thru the corrupted machines.~~
